

Velax

Geometry of sofa

Configure them into new shapes

Velax is a combination of six independent sofas. It is thus defined by interesting combinations; these six sofas each have their own specific shape, but they can also be connected to each other and combined. They can be used independently or together depending on the size of the space at hand; customers will never tire of configuring them into new shapes.

EXH 印西诃

Exh design scope of design from architecture to interior, even furniture and product design. Co-founder and lead designer, Ms. Zhang Xi, successively attended in Architecture study in Tongji University, Shanghai, and the Swiss federal industrial University school of Architecture (Architecture study in ETH Zurich, Dipl. Arch ETH). She worked at Internship and Junior Architect in Herzog & DE Meuron, Basel.

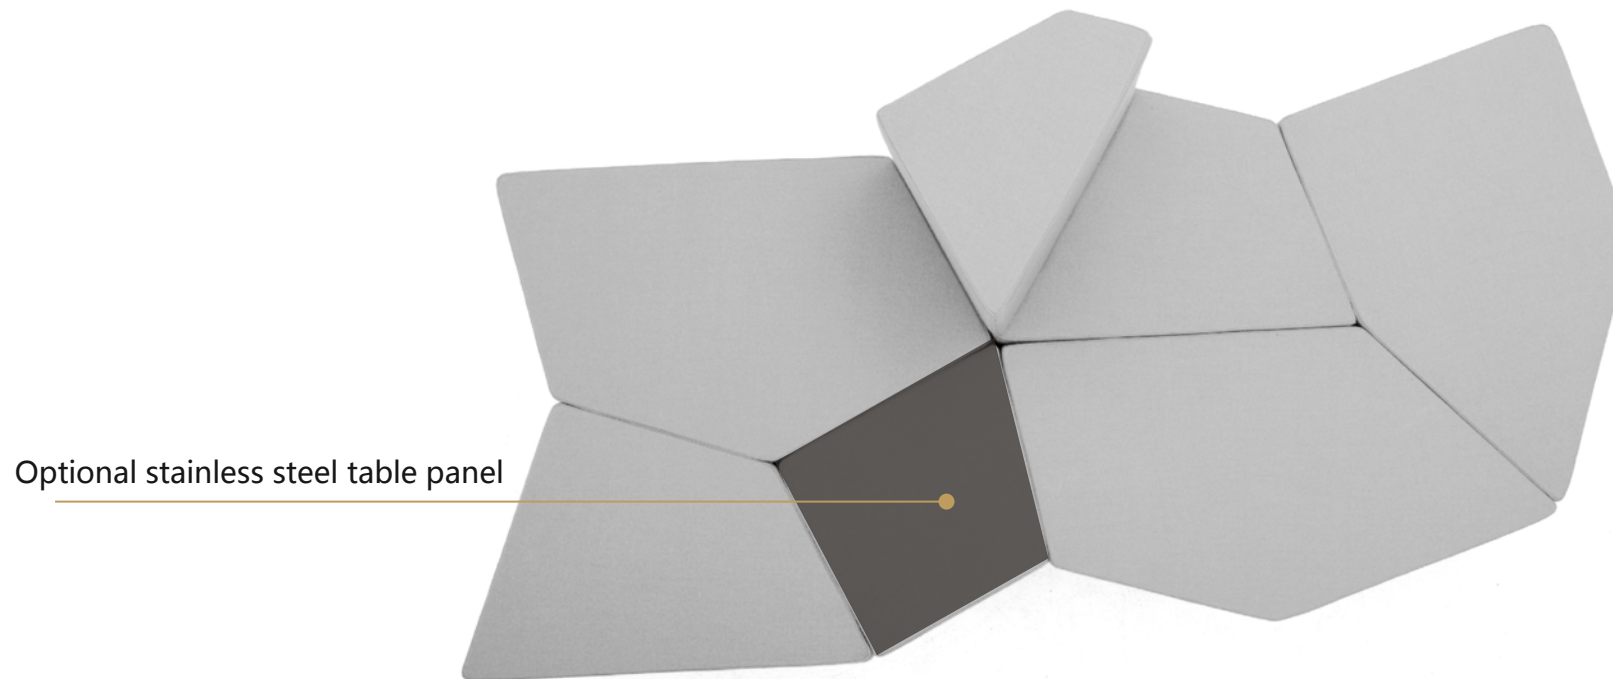

Velax also can be exist independently.

Velax is a combination of six sofas which can be combined and matched freely.
